## **FULL MARKET ANALYSIS:**

This is a powerful tool that will allow you to quickly and easily monitor the entire Forex market.

It can be used for just about any kind of strategy that you like. Whether it be trend trading, range trading, reversals etc. As it gives you perspectives on momentum, risk-sentiment, volatility, overbought / oversold etc.

It also allows you to set thresholds for monitoring specific critical levels and it displays all of the information on one screen. So that you don't have to flip through dozens of charts for your analysis. Saving you an enormous amount of time and effort.

When you combine this indicator with your own trading rules, it will help you to quickly spot numerous potential opportunities throughout the trading week.

## Features:

- Easily keep track of all 28 pairs on one screen.
- Quickly analyze every time frame, from 1 Minute to Monthly.
- Choose from six popular indicators, with fully adjustable settings.
- Automatic sorting from strongest to weakest.
- Easily identify critical levels and potential extremes.
- It can monitor any symbol in your Metatrader platform. Including crypto, commodities, indices, equities, etc.

This indicator only needs to be placed on one chart and it will simultaneously monitor the entire market, all on one screen. This will save you an enormous amount of time and effort. As you won't have to flip through dozens of charts for analysis.

And this will allow you to focus on other aspects of your trading. Such as further technical (or fundamental analysis). This will also give you more time to find other trading opportunities.
