WAYS TO USE IT. INCLUDING ADVICE ON THE BEST PAIRS TO MONITOR,
BEST TIME FRAMES, BEST SETTINGS ETC.

AS WELL AS SOME VERY, VERY IMPORTANT TRADING INFORMATION.
FOR ACHIEVEING THE BEST RESULTS IN YOUR LONG TERM TRADING CAREER.

RANGE TRADER:

This indicator has been designed to automatically identify high probability range trading opportunities. The goal is to find non trending pairs that are coming off a recent high / low. And this indicator uses two filters (RSI and ADX) to identify these opportunities.

IMPORTANT FACTORS TO KEEP IN MIND:

The FX market is range bound at least 70% of the time. And range trading has several distinct advantages that make it safer and more predictable than other trading styles. Such as lower levels of volatility, as well as pre-defined areas for entries and exits.

And this is why some of the largest institutions in the world will specifically focus on the least volatile instruments. As these are the instruments that display the most range-bound behavior.

Features:

- This indicator can monitor all 28 pairs at the same time.
- It can monitor every timeframe, from 1 Minute to Monthly. All at the same time.
- It will automatically trigger an alert whenever the appropriate pattern is identified.
- The indicator includes two separate filters (RSI and ADX), in order to identify the best possible setups.
- It can monitor any symbol in your Metatrader platform. Including crypto, commodities, indices, equities, etc.

This indicator only needs to be placed on one chart and it will simultaneously monitor the entire market, all on one screen. This will save you an enormous amount of time and effort. As you won't have to flip through dozens of charts for analysis.

And this will allow you to focus on other aspects of your trading. Such as further technical (or fundamental analysis). This will also give you more time to find other trading opportunities.

Indicator Parameters:

- **RSI Period:** Setting for RSI filter
- **RSI Up Level:** Overbought level for RSI filter.
- **RSI Down Level:** Oversold level for RSI filter.
- **ADX Period:**Setting for ADX filter
