FOR ACHIEVEING THE BEST RESULTS IN YOUR LONG TERM TRADING CAREER.

ULTIMATE REVERSAL SCANNER:

This indicator has been designed to identify the powerful 'Three Line Strike' reversal pattern.

According to Thomas Bulkowski (internationally known author and a leading expert on candlestick patterns), the 'Three Line Strike' has the highest overall performance rank of any candlestick pattern.

Bulkowski's best selling book "Encyclopedia of Chart Patterns" is recognized around the world, as the premier reference on chart pattern analysis.

IMPORTANT FACTOR TO KEEP IN MIND:

Nothing is more important than price action.

*A strong engulfing candle at the end of a trend is a clear indication that the institutions have flipped.
If it happens at the end of an uptrend, it means that the institutional bears are now in charge.
And if it happens at the end of a downtrend, it means that the institutional bulls are now in charge.*

Features:

- This indicator can monitor all 28 pairs at the same time.
- It can monitor every timeframe, from 1 Minute to Monthly. All at the same time.
- It will automatically trigger an alert whenever the appropriate pattern is identified.
- It can monitor any symbol in your Metatrader platform. Including crypto, commodities, indices, equities, etc.

This indicator only needs to be placed on one chart and it will simultaneously monitor the entire market, all on one screen. This will save you an enormous amount of time and effort. As you won't have to flip through dozens of charts for analysis.

And this will allow you to focus on other aspects of your trading. Such as further technical (or fundamental analysis). This will also give you more time to find other trading opportunities.
